Second Call for Papers

Joint German/Austrian Conference on Artificial Intelligence (KI 2001)

24th German Conference on Artificial Intelligence
9th Austrian Conference on Artificial Intelligence

Collocated with LPNMR'01

September 19–21, 2001
Vienna, Austria

KI-2001

Invited Speakers

Hans Kamp	University of Stuttgart
Michael Kearns	AT&T Labs – Research
Raymond Reiter	University of Toronto
V.S. Subrahmanian	University of Maryland

Important Dates

Submission:	Apr. 9, 2001
Notification:	Jun. 4, 2001
Camera-ready:	Jul. 2, 2001

General chairs
Gerhard Brewka, Leipzig
Thomas Eiter, Vienna

Program chair
Franz Baader, Aachen

Program committee
Padraig Cunningham, Dublin
Jürgen Dix, Koblenz
Jürgen Dorn, Vienna
Didier Dubois, Toulouse
Michael Fisher, Liverpool
Gerhard Friedrich, Klagenfurt
Fausto Giunchiglia, Trento
Horst-Michael Gross, Ilmenau
Andreas Günter, Hamburg
Udo Hahn, Freiburg
Tudor Jebelean, Linz
Jana Koehler, Ebikon
Michael Kohlhase, Saarbrücken
Rudolf Kruse, Magdeburg
Maurizio Lenzerini, Rome
Silvia Miksch, Vienna
Bernd Neumann, Hamburg
Michael Richter, Kaiserslautern
Raul Rojas, Berlin
Francesca Rossi, Padova
Ulrike Sattler, Aachen
Jörg Siekmann, Saarbrücken
Peter Struss, München
Michael Thielscher, Dresden
Sebastian Thrun, Pittsburgh
Andrei Voronkov, Manchester
Wolfgang Wahlster, Saarbrücken
Gerhard Widmer, Vienna
Stefan Wrobel, Magdeburg

Workshop chair
Jürgen Dorn, Vienna

Industrial chairs
Gerhard Friedrich, Klagenfurt
Kurt Sundermeyer, Berlin

Local arrangements
Uwe Egly, Vienna

The conference seeks original research and application papers in **all** areas of Artificial Intelligence. Possible topics include:

Agent technology	Applications of AI techniques
Automated reasoning	Case-based reasoning
Configuration and diagnosis	Constraint solving
Knowledge representation	Machine learning
Natural language processing	Neural networks
Planning and scheduling	Robotics
Uncertainty in AI	Vision

In addition to papers on foundations, we encourage the submission of application papers, which will be evaluated according to special criteria, which can be found on the conference web-page (see "Paper Submission"). The conference language, both for papers and talks, will be English.

Conference submission is electronic in postscript format. Submitted papers must not exceed 15 pages and should conform to the Springer LNCS style (for details see "Paper Submission" on the conference web-page).

The conference proceedings will be published in the Springer series *Lecture Notes in Artificial Intelligence.* Authors of outstanding papers will also be invited to submit an extended version of their paper to a special issue of the journal AICom.

At least one author of each accepted paper must register for and present the work at the conference.

To get more information, consult the conference web-page at `http://www.kr.tuwien.ac.at/KI2001/` or contact
